

THE GLEICHEN CALL

VOLUME XXXIII NO. 28

GLEICHEN, ALBERTA, WEDNESDAY SEPTEMBER 25, 1940

SUBSCRIPTION \$2.00 PER YEAR

URGES FORMATION OF JUNIOR BEEF FEEDING CLUB

About a year ago a meeting was called in the interest of starting a Junior Beef Feeding Club in the Gleichen area. At this meeting it was thought that the idea of a club organization which would overtake similar clubs in the area was a good one.

A letter received by Secretary V. E. Thompson of the Agricultural Society from B. J. Witteread, district agriculturist, pointed out the advantages of such a club, in part Mr. Witteread's letter states:

"It appears more necessary than ever this year that some attempt be made to stimulate grain feeding operations in your district. Large quantities of seed are raised and also because it is from Alberta that grain feeders elsewhere get most of their feeds. Cattle there are more more easily raised than grain fed to cattle than when it is sold to elevators."

"To demonstrate cattle feeding the Provincial and Dominion Government have provided, through their youth training programs, funds for junior stock feeding clubs. This means that junior boys and girls ages 12 to 20 years, are encouraged to form a calf group, trained to understand the art of feeding, is assisted with and the whole feeding program government supervised. Frequent visits are made to each club member's farm, and junior and senior members are given the opportunity to receive practical training."

"The financial encouragement given by the two governments is two-thirds of the prime monies awarded. This leaves the Club one-third to raise, either individually or as a subscriber. With twenty calves exhibited, and top money being \$10 each exhibitor gets at least \$2 the total awards for calves shown is \$76. In addition, a cash award of \$20 is given for \$10 for a judging contest, making a total of \$86.00 in cash if twenty calves are shown. A third of the \$76.00 would be the club's share to raise."

"The Club sets up its own executive of president, vice-president and secretary-treasurer, and in addition has an adult directorate of some three or four persons whose duty it is to assist the Club in its work. One of these adults is appointed by the Club as their senior supervisor and responsible for the preparation of official documents of value."

"We have in the Gleichen district a very active Junior Grain Club this year, and the Juniors of that organization will perhaps make the nucleus of a stock feeding club. It is suggested that the Gleichen Grain Club will hold its annual achievement day and this would be an excellent time to have all juniores meet, who are likely to be interested joining a Junior Beef Feeding Club Club."

"It shall be very glad to hear what your society thinks of opening up this educational endeavor and await suggestions as to future meetings of Junior Beef Feeding Club organization."

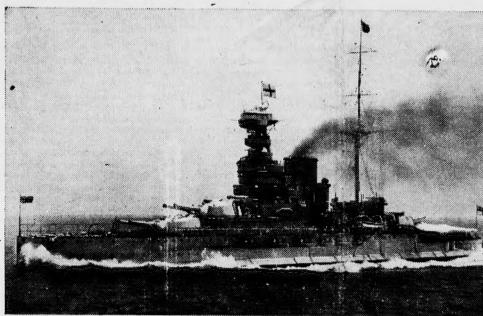

WAR SAVINGS CERTIFICATES

An amount of \$2,000,000 regular War Savings is sought in a national Smash Hitler campaign now opening by the War Savings Committee, it is announced by Messrs. W. H. Somerville and de Gapse Beaudoin, national chairman.

To enable every man and woman in Canada to join this Army of Two Million Regular War Savers, the committee has developed a bank deposit plan with the chartered banks, a special pledge form which will be delivered by mail to over 2,500,000 householders from coast to coast. This is one of the largest single mailings ever carried out by the Canadian Postal Service.

By using this new War Savings Pledge Form any bank depositor can instruct his bank to invest in one or more War Savings Certificates on him on the 15th of every month. Once the Pledge is signed and handed to the bank, the regular purchase of War Savings Certificates becomes automatic. The savings certificate is deducted each month from the account, sent by the bank to Ottawa, and the Certificates delivered by mail to the depositor's

NAMESAKE OF A FAMOUS CLASS

At speed is H.M.S. Queen Elizabeth, nameship of perhaps the most famous and certainly the most successful class of capital ships. Her combination of speed, toughness and fighting power expresses all that the British Navy means—Supremacy.

home address or to any other address he may designate.

"This new pledge plan," states the announcement by the joint executive committee, "provides a simple and easy way for men and women with ideal plans of saving money for his own future use, and at the same time of helping directly in Canada's war effort. Most people have found this kind of fast, easy-to-make arrangement to meet their War Savings needs."

War Savings Certificates every month that is kept to that resolution. By using the new pledge form, the organization continues this hundred-year-old tradition of saving and having signed the pledge that regular investment in War Savings Certificates every month will bring them on to automatic payment."

In connection with this plan, the War Savings Committee hopes to impress upon all Canadians the fact that when they purchase War Savings Certificates, they are lending at a reasonable return to the nation. Last year amounts to a full 25 percent in seven and a half years."

We hope by the end of the year that a least two million people will have taken advantage of saving and new and feasible means of building up a reserve of savings for the future."

THE WORLD OF WHEAT

Some persons in demand that the Winnow's "Futures" market should be closed. At the same time the government is being urged to adopt a general futures market for the greater part of the wheat marketing unsold on farms. Farmers in the past, it is contended, have sold and received cash for the bulk of their wheat by December 1st, and this has been a welcome relief to them. When the equinox passes it is not a sign of fine harvesting weather, because the chances are that it will be wet and if dry there will be wind. We hope that it will not be that way.

ITEMS OF INTEREST CRAIGANTLER AND DISTRICT

About three quarters of an inch of rain fell during the week end and will delay harvesting most of this week.

The highway between Strathmore and Gleichen is not likely to be rebuilt this season unless the weather permits.

Eddie and Mrs. Collinson and family were visitors Sunday with Mrs. Collinson's parents, Capt. and Mrs. Grant of Brandon.

Mrs. Schirber has not been enjoying the test of health lately. Her many friends hope that she will soon improve and be around again.

Jack Stickle was on the road Sunday night en route to Lethbridge. Jack was still stuck at Moose's moon. Jack is unable to figure it out whether it was the car of the driver who was at fault.

Johnnie Grand was a visitor in the district Sunday accompanying Mrs. Grand and family who were visiting him in Calgary There is a rumor of an early move for the C.A.S.C. from Mewata.

J. B. Grant has three weeks of combining to do and likes very little work or weather to do it in. When the equinox passes it is not a sign of fine harvesting weather, because the chances are that it will be wet and if dry there will be wind. We hope that it will not be that way.

OBITUARY

Mrs. CLAUDIA LEBEL

Mrs. Claudia Lebel, widow of Rev. Fr. Label passed away in Drumheller hospital last week after an illness of several weeks. Mrs. Lebel was 66 years of age and had resided in Gleichen for the past 20 years. She was the mother of twenty-one children, nineteen of whom are surviving. Her husband died eleven years ago. High Request Mass was said at St. Victor's Church Thursday afternoon which remains were taken to Drumheller and from there shipped to Quebec for interment in the family plot.

It is only now, when the war is temporarily disrupting so many world wide functions, that the value of the services the family rendered to the community in the district where their parents resided. Failure to do so will incur penalties of fine or imprisonment.

Canadian mills and plants are producing an increasing volume of personal equipment for Canadian soldiers. In a recent two week period \$50,000 items of clothing were made in Canada for the army.

COMING EVENTS

Oct. 12 — U.F.W.A. Thanksgiving tea and sale of home cooking in Legion Hall.

FROM THE FILES OF GLEICHEN CALL TWENTY YEARS AGO

Wm. Walsh motored up from Lethbridge Saturday for the week end. He was accompanied here by Mrs. Walsh, who had been visiting him a short time.

Miss Setter had the misfortune to break her arm in two places and dislocate the wrist while riding his Ford.

Miss Morton has arrived from Guelph, Ont. to take charge of the domestic science department of the school which is now open for pupils. Yesterday she left to attend the school fairs of the Vermillion district.

After an absence of twelve years Mrs. McLean Schone returned to town from Minnesota to inspect their farm north of town as well as the surrounding country. They found wonderful changes had taken place here since their last visit.

Miss Morton has returned to Guelph after spending a vacation with her parents.

The hand of the separator is heard throughout the land and soon the actual facts will be known.

The sale was not completed but will be Saturday next. Here is a chance to get some good lots cheap.

Mrs. McLean Schone has arrived in town from Lake Minnewanka with her family to take advantage of our splendid public and agricultural schools.

It is up to Gleichen to find board and room for the pupils of our new agricultural school. For thirteen years we worked to get this school and now cannot quit.

THE WEEK IN EDMONTON

(By Dan E. Campbell)

Freedom of the Great Outdoors, of the Forests and Streams of Alberta, San Francisco president of the Dunes Unlimited, by Premier Aberhart at the legislative buildings. On a visit to Western Canada to inspect conservation measures, he was accompanied by Mr. Collier, president of the Alberta Game Commission, who accompanied him to Brandon to study the dunes.

It is reported that the Dunes Unlimited has organized this week, when 5000 armistice to be left the city for Brandon Manning pool to swell the capital's total to 700. Immediately afterwards, executive officials issued a call for men and mules. Calls were also sent out from other military units scattered in the city.

Business at Jasper Park Lodge during the current season was 15 per cent higher than the previous all-time peak of 1939. It was reported. The 1940 season, which got under way last week, is the most successful yet, with 231 entries against the previous high of 185 in 1939. Wealthy Americans

To Alleviate Suffering

Emergency Work Of Red Cross In Canada Is Beyond Praise

Canadian Red Cross officers in England are making night and day in their emergency efforts on behalf of people rendered homeless by German air raids. A cable received at Red Cross headquarters in Toronto stated that thousands of articles of clothing and tons of food were being distributed daily. The cable, signed by the Overseas Commissioner, Colonel George Nasmith of Toronto, whose office is right in the heart of London, ended, "All well and cheery."

In making the cable public, Mrs. H. P. Plumtree, chairman of War Activities, said, "The people of Canada who came over to help us brought thousands of blankets during a recent appeal made by the Canadian Red Cross must derive great satisfaction from the knowledge that their blankets, which were sent to help thousands of homeless men, women and children in Britain. Preparing ourselves for such an emergency, the Canadian Red Cross has already shipped forty-five thousand blankets to England. Other appeals will go forward immediately."

"Similarly thousands of dollars worth of clothing and canned food had been shipped from Canada to England during the past month and had been stored in Canadian Red Cross warehouses in England for emergency use," Mrs. Plumtree said. "With the support of the people of Canada the Canadian Red Cross Society is doing everything possible to alleviate the suffering of the people of Britain," she continued.

Always Resourceful

Pilot Used Damaged Spitfire To Bring Down German Bomber

A Spitfire pilot used his flaming plane to bring down a German bomber.

At the height of the fighting the first shot down two or more Dornier bombers from a formation and flew away, only to find that the tail of his Spitfire was literally spitting fire. He then headed toward the German formation, took a "head-on" in the nearest Dornier, and cleared just before the collision.

The Briton landed safely in the street of a southeast town, while the Germans crashed to earth.

Bands For Canadian Air Force

The Royal Canadian Air Force will have shortly a number of bands throughout the country to lead marching fanfare R.C.A.F. music. The band in Ottawa will provide a training school for all bands to come. It has already deserved high praise.

Tuberculosis of the spine has been noted in human skeletons more than 10,000 years old.

Ask for BEE HIVE

The French Foreign Legion

Fighting With Britain Is Sure Germany Will Be Crushed

Officers of the famous French Foreign Legion, now fighting by the side of their British comrades against a common foe, are confident France will be the aggressor in her former position of power and prestige among the nations of the world.

Bivouacked near the Canadian encampment the adventurous Frenchmen have found a community of allies in the British. Many other Canucks with bonds of friendship growing fiercer every day. Most of the legionnaires have seen service in Algeria, Morocco, Syria and more recently, fighting gallantly against numerically superior German forces in Norway.

After a dinner arranged in honor of the Frenchmen by Maj. W. H. S. Mackay, of Ottawa, and the commanding officer of the 2nd divisional headquarters staff, these belligerent soldiers spoke their minds freely about the collapse of France.

"We know that the cause of France is solid and that the people who have fought the very backbone of her greatness in the past will arise one day and reassess themselves," the commanding officer of the force declared.

He asked that his name should not be disclosed, not because he feared the consequence of possible action against himself, but in consideration of his family and friends now in the occupied zone.

"The Germans wouldn't hesitate to wreak their vengeance on our loved ones and we do not wish to add to the misery of war," he said. "Germany has been freed from generations and will never endure the lash of the oppressor for long. What is more we know that Germany will ultimately be crushed."

Agricultural Products

Contributions Are Authorized For Certain Organizations

The Canadian government has authorized whaling dealers above the established quota of eight bushels per acre seed acre for contributions to the following five organizations directly concerned in the whalers' cause:

The Canadian Red Cross Society, The Salvation Army, Red Shield war service fund.

The Canadian Legion war service funds.

The Knights of Columbus Canadian army funds.

The Young Men's Christian Association world war services fund.

"These are the only organizations in Canada which have a definite interest in this way," the announcement said. "When space is available the producer should deliver the wheat to the elevator, have the producer's certificate issued on his own name and the cash ticket made out in the name of the organization above to which the contribution is being made."

The contribution must be made in the cash ticket given to the organization and not by endorsement of the storage ticket. This delivery need not be recorded in the permit book as a part of the established quota.

The producer may sell the cash ticket to the organization concerned, as this involves transfer of ownership and the board cannot buy wheat from each organization, since they are not "producers" within the terms of the Canadian Wheat Board Act."

Would Help A Lot

A story of Gracie Fields told in a London paper says "she attends no parties, she has no dignitaries, never takes a drink and never goes to bed. If all who have heard her sing were to impose similar inhibitions as a plan, say, to help the war, what an addition to the national resources it would mean."

Evelyn Beatrice Longman was the first woman sculptor to be honored by membership in the National Academy of Design. Her membership began in 1919.

Mail for Soldiers

Wrong Addresses On Letters And Parcels Cause Delays

Tens of thousands of these who are sending mail overseas to soldiers are misaddressing letters and parcels thus causing delay and disappointment to the addressees. Mr. Mulock held the press during a tour of the new base post office at Ottawa.

The postmaster-general re-emphasized that the way to address mail for overseas is:

Mr. ——, R.M., rank, name, full name of regiment or unit, Canadian Active Service Force, care of base post office, Canada.

With regard to complaints of non-receipt of letters and parcels sent overseas through tobacco companies, he said that 4,000 packages had been lost on a vessel as the result of enemy action earlier in the present war.

Investigation showed that some packages expected by soldiers had not been sent by friends in Canada and that some parcels had arrived late, but he said in his opinion that it was not due to any mistake.

"We know that the cause of France is solid and that the people who have fought the very backbone of her greatness in the past will arise one day and reassess themselves," the commanding officer of the force declared.

He asked that his name should not be disclosed, not because he feared the consequence of possible action against himself, but in consideration of his family and friends now in the occupied zone.

"The Germans wouldn't hesitate to wreak their vengeance on our loved ones and we do not wish to add to the misery of war," he said. "Germany has been freed from generations and will never endure the lash of the oppressor for long. What is more we know that Germany will ultimately be crushed."

Gifts Of Grain

Contributions Are Authorized For Certain Organizations

The producer may sell the cash ticket to the organization concerned, as this involves transfer of ownership and the board cannot buy wheat from each organization, since they are not "producers" within the terms of the Canadian Wheat Board Act."

Long Odds

A Briton's chances of being killed by German air bombs in the period from June 1 to August 20 were around one in 3,000,000, says a report, according to a statement made by Lord Croft, Under-secretary of State for War. On this basis the average of fatalities among the land's 44,937,444 inhabitants was less than 1.5 a day.

It is amazing to find the Germans admitting any inferiority but there they go, insisting that we're bigger liars than they are.

Has Research Declared Wrong

Successful Bombing From Air Is Not Haphazard Job

Among laymen there appears to be a popular misconception that bombing from the air is a sort of trial-by-error process, with bombs dropped haphazardly at a target and failing much like a stone. People drop a brick from the upper story of a building. The truth is that bombing, like most other phases of modern war, is a highly scientific form of assault, based on precision of a hair's-breadth, and its timing determined by extremely sensitive instruments.

When a plane is in level flight, and a bomb is dropped, it does not immediately drop downwards, rather does it follow the same horizontal position as the plane, and its speed is also the same as that at which the plane is traveling. This horizontal trajectory continues until the bomb begins to lose its forward speed, and then it gradually slopes vertically toward the earth. The fins attached to it serve as stabilizers and prevent it from falling tail-first.

Wind drift, speed of the plane, and its altitude are all important factors in working out the trajectory a bomb must follow if it is to reach its mark. As far as possible its objective, the navigator reaches the bombing sight, which is the nerve centre of a bomber's finely-adjusted equipment and can be manipulated to resolve the problem of calculating the release of the missile. The plane's altitude may commonly be ten thousand feet, its speed two hundred miles an hour, and the target as yet two miles away. The navigator has to calculate the time of arrival, target it, keep it there, and faithfully maintain altitude, while the navigator is still concentrating on the bombing sight. At the instant the target is reached, the bomb is released, the fins align the bomb to the target, and the bomb falls to the earth.

Investigation showed that some packages expected by soldiers had not been sent by friends in Canada and that some parcels had arrived late, but he said in his opinion that it was not due to any mistake.

Theory Declared Wrong

Abstaining From Meat In Summer Does Not Affect Body Heat

The old advice to eat less meat to keep cool in hot weather was shown to be exactly wrong in experiments conducted at Pennsylvania State College, to eat lean meat and other protein foods as usual, eat carefully about consumption of starch, sugar and fat.

The old theory rested on experiments with animals kept cool by water, though she is born, brought up by tradition, by affection, by great similarity of habits and all those ties which time alone can create and conserve, is not a mere Power of Nature, but a power of the geographical position, her laws, her language, and her religion, connect her as much with the New World as with the Old. Still, if ever Europe by her short-sightedness fails to infer and extend the example, the world will remain an illustrious future.

We are bound to the communities of the New World, and those great states which have open plains and country, whose energy is created by ties and interests which will sustain our power and enable us to play as great a part in the times yet to come as we do in these days, and as we have done throughout the world thereafter.

I see that it is for Europe, not for England, that my heart sinks.—Mrs. I. Davey, in London Times.

HOME SERVICE

STRETCH FAMILY INCOME BY SIMPLE BUDGET PLAN

Have Money for What You Want

"Don't get the things I want?" Why, I can't even pay for the things I have! I have a bill left over, a pet project put off. If only I had more money!"

But you don't have more money. Planned spending not only keeps run-away expenses in line but it actually seems to stretch your money.

Those bills that look overwhelming are easily paid off if you have anything to fall back on. Careful planning by impulsive marketing you may have run into a pocket hole that's hard to get out of, even though it is not easy.

How all this can be done with a weekly income of \$10 a week is ample for food, learning to use the cheaper cuts of meat, buying clothes, and for "advantages" such as a movie a week, or a vacation.

Those bills that look overwhelming are easily paid off if you have anything to fall back on. Careful planning by impulsive marketing you may have run into a pocket hole that's hard to get out of, even though it is not easy.

Make your money go further with a budget. Our 32-page booklet tells how to apportion your income so you can live better. Give rules for buying; save rules for a year's accounts.

Send 25 cents in coins for "How to Budget and Buy for Better Living"—Home Service Plan. Write to Newsweek, 170 McDermott Ave., E. Winona, Minn.

**THE WEEK IN
EDMONTON**

are becoming Jasper conscious in increasing degree.

For the academic year of the University year now started, Monday when second-agers wrote supplementary examinations in an effort to catch up on spring failures. Sessions concluded Tuesday. Registrations of first and second students will get underway Tuesday. Lecture command Septem ber 27.

Details of the Canadian Legion War Services Inc. educational plan for the fighting forces were made known in Edmonton by John W. Schuster, director of the war services. Charles Branch of the Alberta Department of Education and committee member for the scheme. Instruction in classrooms throughout Canada will be augmented by correspondence through the various provincial educational departments. Immediate objectives are to create efficiency in service men and fit them for promotions, and give them certain general knowledge and technical training so that they may more easily adapt themselves to post-war conditions.

W. V. Brown received word last week of the death of a brother in Appin, Ontario. Mr. Brown states that his brother died the first death of a brother or sister in 60 years. His parents have passed on, one in 1910 and the other in 1920.

Considerable rain fell throughout the district Sunday and stopped all harvest operations for some days. Monday a heavy fall of smoke from northbound bush fires hung over the valley, preventing rapid drying out of uncut grain and grain already cut and in stock.

Dr. George Hoey, V.M., who arrived to take over from Tom Cox, D.V.M., has registered with the Alberta Veterinary Association and will practice his profession in this district. Dr. Hoey had many years experience as a veterinary surgeon and anyone needing his services will find him at Mrs. McConnell's residence.

Friday several Gleichen soldiers of 2nd Battery at Camp Shilo, Manitoba, came home on leave and spent until Monday morning visiting relatives and friends. They can be seen by spectators in town. The Gleichen boys from all over Alberta and especially Red Deer. Early Monday morning the boys left by bus for camp. They expect to stay soon for Eastern Canada. The Gleichen boys who have been here are R. Clifford, L. Thorburne, E. Woods and V. Jennings.

Voluntary cadet training in the fundamentals of military art is now permissible, and male students in Grades 11 and 12 may obtain credits for their work along these lines, it is disclosed. Education officials will be carried on outside the regular school hours, and students may quit at will. Training in squad and field work, military geography and drill, will be essential parts of the course which may be taken by boys in lower high school grades if desired. No credit will be allowed to the younger classes, however. Most of the officials are approaching the case training jointly with educational officials.

Local children of Alberta, who ordinarily are sent by the education department to a Winnipeg school, this year are going farther afield. The Manitoba Iota tuition was taken over for war training purposes, with the result that other accommodations had to be sought. The children have now been placed in a Montreal school, where they will carry on their studies.

Home improvement loans in Alberta have increased to \$1,000,000, valued at \$162,198. This brings Alberta totals to \$8,663 loans valued at \$3,621,010 since inception of the plan on November 1, 1936. In all Canada a total of \$1,663,106 has been loaned to date. Lending in horticulture is Ontario and Quebec, with Alberta in third place.

The 30-day period spent in training camps by Canadians will be continued with the assistance of learning how to be a soldier. The daily routine will be brightened with sports, singing songs and recreations; after squad drills, lecture and target practice.

The erection or enlargement of more than 100 industrial plants in Canada under the government's industrial expansion program will involve expenditures totalling some \$180,000,000. These will help provide for Canada's growing war needs.

ST. ANDREW'S CHURCH
Special Harvest Thanksgiving Service next Sunday, Sept. 29th at 7:30 p.m.

Everyone cordially invited.

Rev. L. T. Pearson, minister.

Town & District

Capt. Grant reports there is a lot of harvesting to be done throughout the Gleichen district. It is estimated that half the crop is not harvested yet.

Mr. W. Walsh, an old timer of Gleichen but now living in Minnedosa, spent the week end in town renewing acquaintances. He has 16 years to go before he retires.

The irrigation water was shut off Monday by J. E. Lester. There was no ceremony or anything about it. All that was necessary was to pull the electric switch. Now pipes have to be pulled out of the lake, pipes drained and the lake emptied of its water.

The United Church School had its annual meeting last Friday afternoon at the residence of Mr. J. Boyd. Judging by reports the children had an enjoyable time. They certainly stored away vast quantities of hot dogs and other good things.

W. V. Brown received word last week of the death of a brother in Appin, Ontario. Mr. Brown states that his brother died the first death of a brother or sister in 60 years. His parents have passed on, one in 1910 and the other in 1920.

Considerable rain fell throughout the district Sunday and stopped all harvest operations for some days. Monday a heavy fall of smoke from northbound bush fires hung over the valley, preventing rapid drying out of uncut grain and grain already cut and in stock.
